

CANADIAN GLOBAL
ENERGY FORUM

Annual Conference 2022

CATCHING THE NEXT ENERGY WAVE

Adapting to Secure Opportunities
for a Better Future
in Turbulent Times

JUNE 6, 2022
HUDSON
CALGARY, CANADA

Welcome

"It's great to be back...."

Welcome to Calgary and the ninth annual CGEF Conference! On behalf of the Directors and Advisors of The Canadian Global Energy Forum (CGEF), we are proud to again bring you this unique one-day conference after a two-year hiatus due to the Covid pandemic.

The annual CGEF Conference is a premier E&P event that connects international energy and energy-related companies, governmental regulators, service providers, and the financial community with new business opportunities across exciting new geographies and frontiers.

With the unprecedented change now taking place in the energy industry, this year's CGEF Conference provides a much-needed and timely look at current state of the industry. This year's conference is comprised of a series of expert panels that examine a spectrum of important E&P topics. These panels will provide an overview of global E&P activity, the financial market and a forecast of E&P activity in this extraordinary time of supply and logistical challenges, and energy transition. Also, given the high product prices spurred by global events, companies will share their thoughts on increasing portfolio value by optimizing the performance of new and existing assets. Regions of particular interest will also be reviewed with respect to their potential and the lessons learned by operators as a to guide future E&P activities. As leadership is a common thread that runs through all organizations associated with the energy industry, the challenges of organizational leadership in these extraordinary times will be examined by an assortment of leaders as a preview of what is to come next in the energy industry.

CGEF serves and promotes Canadian-based international E&P companies and service providers all over the globe. We are extremely thankful to our many sponsors, without whose financial support this conference would not be possible, and to the many people who have worked tirelessly to make this conference and the CGEF organization successful. We also thank our panelist for taking the time to share their knowledge with our attendees who have come from far and wide to be part of this important networking event.

We hope that you are able to use this year's conference as an opportunity to renew old acquaintances, learn about new opportunities and how to navigate your way through challenges associated with working in foreign countries which have differing logistics, laws, cultures and regulations.

Marty Wittstrom
CGEF Vice-President
2022 CGEF Conference Chairman
